Learner Dashboard

Personal Learning Hub

Complete Feature Explanation Guide

PhysioGuidance — Roya Almustaqbal for Health Training

NELC + SCFHS Compliant • Bilingual AR/EN • WCAG 2.1 AA • CME Tracking

ROLE: STUDENT / LEARNER | Scope: Own data only (WHERE studentId = currentUser.id) | Authorization: Read enrolled courses, submit assessments, view own progress, download own certificates | CANNOT access other students' data, instructor data, or platform admin features.

Purpose	Give each learner a simple, motivating view of their plan, progress, and achievements
Pages	7 pages — Dashboard Home, Course Catalog, My Courses, Course Learning, Calendar, Transcripts & Certificates, Support
Key Principle	Learner is the CONSUMER. Courses are created by Course Manager, content is delivered by Instructor, Learner studies and earns certificates.
NELC Requirement	Learner must see attendance status vs required minimum (70%), access certificates with QR verification, and have accessibility controls.
Data Isolation	Every API call filtered by studentId = currentUser.id. Learner cannot see other students' grades, progress, or personal data.

Table of Contents

Right-click → Update Field in Word to refresh page numbers.

1. Dashboard Home — Your Learning Command Center

Page: (dashboards)/dashboard/student/page.tsx

The first screen a learner sees after login. Designed to answer one question instantly: what do I need to do next? The dashboard is motivational and action-oriented, showing progress, upcoming tasks, and celebrations (certificates earned).

1.1 KPI Cards (Top Row)

Four metric cards giving the learner an instant snapshot of their learning journey:

Card	What It Shows	How It's Calculated	Visual
Overall Progress	Average completion across all active courses	AVG(enrollments.progress) WHERE studentId = me AND status = 'active'	Circular progress ring with percentage in center
Attendance Rate	Current attendance vs required NELC minimum	count(present + late) / count(all_sessions) for enrolled courses	Progress bar: green if ≥70%, red if below
Certificates	Earned + pending eligibility + expiring soon	certificate_requests WHERE studentId = me, grouped by status	Three mini badges: earned (green), pending (yellow), expiring (orange)
Next Session	Countdown to next upcoming session	MIN(sessions.scheduledAt) WHERE enrolled AND future	Timer display with 'Join' button when <15 min away

User Flow: Sarah logs in Monday morning → sees Overall Progress 72% → Attendance at 68% (red warning: 'You need 2 more sessions to reach 70%') → Next Session: 'Physical Therapy Basics in 45 minutes' with Join button → 1 Certificate pending review.

1.2 My Active Courses Widget

Horizontal scrollable cards showing all courses the learner is currently enrolled in. Each card displays:

- Course thumbnail and title (AR or EN based on language setting)
- Instructor name and photo
- Progress bar (0-100%) with percentage label
- **Next Action button** — the most important element on the card:
  - 'Resume Lesson' — if learner was partway through a video/module
  - 'Join Zoom' — if a live session is starting within 15 minutes
  - 'Take Quiz' — if a published assessment hasn't been attempted yet
  - 'Upload Assignment' — if an assignment assessment is pending submission
  - 'View Results' — if a graded submission is ready
- Deadline alert badge: red for overdue, yellow for due within 24 hours
- Missing tasks count: number of incomplete items for this course

1.3 Upcoming Sessions Widget

List of the next 3-5 sessions across all enrolled courses, ordered by time:

- Session title, course name, instructor name
- Date and time (timezone-aware, displayed in learner's local time)
- Delivery type icon: Zoom (camera icon), On-site (building icon), Hybrid (both)
- Join button: active when session is live or starting within 15 minutes
- 'Add to Calendar' link: exports .ics file for Google/Apple/Outlook calendar

1.4 Recent Activity & Notifications

Two small widgets at the bottom:

- **Recent Activity:** timeline of learner's last actions — 'Completed Module 3', 'Scored 85% on Quiz 2', 'Attended Physical Therapy Session'
- **Notifications:** platform alerts — 'New session scheduled for Thursday', 'Your certificate has been approved', 'Quiz 4 is now available', 'Reminder: session in 1 hour'

2. Course Catalog — Browse & Enroll

Page: student/catalog/page.tsx

The catalog shows all courses with status 'Published' or 'Active' that are open for enrollment. This is where learners discover and sign up for courses.

2.1 Catalog Grid

Cards displayed in a responsive grid. Each course card shows:

- Course thumbnail (uploaded by CM or auto-generated)
- Course title (AR/EN) and short description
- Category badge (e.g., 'Physical Therapy', 'Nursing', 'Emergency Medicine')
- Delivery mode: On-site / Online / Hybrid
- Duration: total hours and number of sessions
- CME hours badge (if accredited) — important for healthcare professionals
- Instructor name and rating
- Price: free badge or amount in SAR
- Seats remaining: '12 of 40 seats left' with urgency when <5 remain
- Start date and enrollment deadline

2.2 Filters & Search

Filter	Options	Purpose
Search	Free text by title/description	Find specific courses
Category	Dropdown of SCFHS categories	Browse by specialty
Delivery Mode	On-site / Online / Hybrid / All	Match preference
Price	Free / Paid / All	Budget filter
CME Accredited	Yes / No / All	Healthcare professionals need CME hours
Availability	Open / Starting Soon / Full	Find enrollable courses
Language	Arabic / English / Both	Content language preference
Sort	Newest / Starting Soon / Most Popular / Rating	Ordering preference

2.3 Enrollment Flow

1. **Learner clicks 'Enroll' on a course card**
2. **Course detail page opens:** full description, objectives, module list, instructor bio, schedule, CME hours, reviews

3. **Learner clicks 'Enroll Now' button**
4. **If FREE:** enrollment record created immediately, learner redirected to My Courses
5. **If PAID:** payment flow opens — select gateway (Tap/Moyasar for cards/Mada/Apple Pay, or Tamara/Tabby for BNPL) → process payment → invoice generated → enrollment created
6. **Enrollment confirmation:** email/SMS sent, course appears in My Courses, sessions appear in calendar

NELC Limit Enforcement: If the course has reached its learner limit (40 for long / 50 for short), the 'Enroll' button is replaced with 'Course Full — Join Waitlist'. The learner cannot bypass this limit.

3. My Courses — Active Learning Hub

Page: student/courses/page.tsx

Shows all courses the learner is enrolled in, organized by status. This is the learner's personal course portfolio.

3.1 Course Tabs

Tab	Shows	Sort Order
In Progress	Courses with progress < 100% and status = 'active'	Most recently accessed first
Completed	Courses with progress = 100%	Most recently completed first
Upcoming	Enrolled but course hasn't started yet (status = 'published')	Start date ascending
All	Everything regardless of status	Enrollment date descending

3.2 Course Card (Enhanced)

Each course card in My Courses is richer than the catalog card because the learner is already enrolled:

- Progress bar with exact percentage and modules completed count
- Attendance indicator: green checkmark if ≥70%, red warning if below
- Next deadline: 'Quiz 3 due in 2 days' or 'Session tomorrow at 10:00 AM'
- Missing items count: '2 quizzes not attempted', '1 assignment pending'
- Last accessed: '3 hours ago' or 'Last week'
- **Primary action button** that changes based on what's most urgent: Resume, Join, Take Quiz, etc.

4. Course Learning Page — The Study Experience

Page: student/courses/[courseId]/page.tsx

When a learner clicks into a course, they enter the learning experience. This is where they consume content, watch videos, read materials, and take assessments.

4.1 Course Overview

- Course description, learning objectives, instructor info, CME hours
- Overall progress ring and completion status
- Attendance summary: attended X of Y sessions (rate: Z%)
- Assessment summary: completed X of Y, average score Z%

4.2 Module Navigation (Left Sidebar)

Vertical list of all course modules in order. Each module shows:

- Module title and type icon (video, document, quiz, mixed)
- Completion checkmark: green check if completed, empty circle if not
- Locked indicator: padlock icon if module requires previous module completion (sequential mode)
- Current position: highlighted module where learner left off
- Duration estimate for each module

4.3 Content Viewer (Main Area)

The main area changes based on the type of content being viewed:

Content Type	Viewer	Features
Video	Embedded video player	Play/pause, seek, speed control (0.5x-2x), captions toggle (AR/EN), fullscreen, progress tracking (saves position)
PDF / Document	Inline PDF viewer or rendered content	Page navigation, zoom, download button, text selection
Image	Image viewer with zoom	Pinch to zoom, alt text displayed below for accessibility
Quiz / Assessment	Assessment interface (see Section 5)	Timer, question navigation, submit button

4.4 Video Player Features (NELC/WCAG)

- Captions: AR and EN subtitles selectable, on by default if learner preference set
- Transcripts: full text transcript panel alongside video, synced to playback position

- Progress saving: automatically saves position every 10 seconds, resumes from last position
- Completion tracking: video marked 'completed' when learner watches ≥90% of duration
- Keyboard navigation: space = play/pause, arrow keys = seek, C = captions toggle
- High contrast mode: player controls respect learner's contrast setting

4.5 Course Progress Tracking

The system tracks progress at multiple levels:

Level	How It's Tracked	Updates When
Video	Watch time / total duration	Every 10 seconds during playback
Document	Opened = completed	Learner opens the document
Quiz	Submitted = completed	Learner submits the assessment
Module	All items in module completed	Last item in module is marked complete
Course	All modules completed	Last module reaches 100%

Overall course progress = (completed modules / total modules) × 100. This number updates in real-time and is visible in My Courses, Dashboard Home, and the learner's profile.

5. Taking Assessments — Quiz & Exam Interface

Page: student/courses/[courseId]/assessment/[assessmentId]/page.tsx

When a learner starts a quiz or exam, they enter a focused assessment interface. This is the ONLY place where learners interact with assessments — instructors create them, learners take them.

5.1 Assessment Start Screen

- Assessment title, type (Quiz / Exam / Assignment), total marks, passing marks
- Number of questions, time limit (if set), attempts allowed vs used
- Instructions and rules (set by instructor, reviewed by CM)
- 'Start Assessment' button — timer begins on click
- Warning: 'Once started, the timer cannot be paused' (if timed)

5.2 Question Types

Type	Interface	Grading
MCQ (Single)	Radio buttons for options, one selectable	Auto-graded on submit
MCQ (Multiple)	Checkboxes for options, multiple selectable	Auto-graded on submit
True / False	Two radio buttons: True or False	Auto-graded on submit
Short Answer	Text input field (max 500 chars)	Instructor grades manually
Essay	Text area (max 5000 chars) with formatting toolbar	Instructor grades manually
File Upload	File picker for assignment submission (PDF, DOCX, images)	Instructor grades manually

5.3 During Assessment

- Question navigation panel (sidebar): numbered circles, green = answered, empty = unanswered, yellow = flagged
- Timer countdown: visible at top, turns red when <5 minutes remaining
- Flag question: mark for review without answering (yellow flag icon)
- Previous / Next buttons to move between questions
- Auto-save: answers saved every 30 seconds (prevents loss on disconnect)
- Auto-submit: when timer expires, whatever is answered gets submitted automatically

5.4 After Submission

- Confirmation: 'Assessment submitted successfully'

- If auto-graded (MCQ/TF): score shown immediately with breakdown per question
- If manually graded (essay/assignment): 'Pending instructor grading' message
- Review: can view submitted answers and correct answers (after grading for manual types)
- Retake: if retakes allowed and cooling period passed, 'Retake' button appears
- Score added to transcript immediately (or after grading for manual types)

6. Calendar & Reminders

Page: student/calendar/page.tsx

6.1 Calendar View

Monthly calendar showing all upcoming events for enrolled courses:

- Sessions: blue dot on calendar day, click to see details
- Assessment deadlines: red dot on due date
- Assignment due dates: orange dot
- Color coding: blue = session, red = exam/quiz, orange = assignment, green = completed
- Today highlighted with ring
- Click any day to see list of events for that day

6.2 Event Detail

When learner clicks an event, a detail card shows:

Event Type	Details Shown	Action Button
Zoom Session	Title, course, instructor, time, duration, Zoom link	'Join Zoom' (active when live or <15 min away)
On-site Session	Title, course, instructor, time, venue, room	'Get Directions' (opens map)
Quiz/Exam	Title, course, due date, time limit, attempts	'Start Assessment' (if not yet taken)
Assignment	Title, course, due date, submission type	'Upload Assignment' (if not yet submitted)

6.3 Timezone Support

- All session times stored in UTC in the database
- Displayed in learner's local timezone (auto-detected or manually set)
- Timezone display: 'Tuesday, March 15 at 2:00 PM (AST - Arabia Standard Time)'
- If learner travels, times adjust automatically based on device timezone

6.4 Reminders System

Multi-channel reminders to keep learners engaged:

Channel	Integration	Content
Email	Resend / SMTP	Session reminder, assessment due, certificate ready
SMS	Unifonic / Infobip	Short message: 'Your session starts in 30 min'
WhatsApp	Unifonic / Infobip	Rich message with join button link

In-App	Push notification / Bell icon	Real-time notification in dashboard

Reminder timing (configurable by learner): 1 hour, 30 minutes, 15 minutes before session. Each reminder has 'Snooze 10 min' and 'Mark Done' actions.

7. Transcripts & Certificates — Your Achievements

Page: student/certificates/page.tsx

NELC Requirement: Learners must be able to access their certificates and verify them publicly.

7.1 Academic Transcript

A comprehensive record of the learner's academic history on the platform:

Column	Content	Notes
Course Name	Title in current language	Link to course detail
Enrollment Date	When learner enrolled	Formatted in locale
Status	Completed / In Progress / Dropped	Color-coded badge
Progress	% completion	Progress bar
Attendance	% of sessions attended	Green if ≥70%, red if below
Assessment Average	Average score across all assessments	Percentage
Grade	Final grade (if applicable)	Pass / Fail or letter grade
CME Hours	Accredited hours earned	Only for SCFHS-accredited courses
Certificate	Status: Issued / Pending / Not Eligible	Link to download if issued

- Transcript downloadable as PDF with official formatting
- Includes learner name, platform name, date generated, all courses with details
- Can be used as evidence of CME hours for SCFHS recertification

7.2 Certificates

7.2.1 Certificate Status Tracking

Status	Meaning	Learner Sees
Not Eligible	Requirements not met (attendance <70%, assessments not passed, or incomplete)	Checklist: shows which requirements are met (green) and which are not (red)
Pending Review	All requirements met, waiting for instructor approval	'Your certificate is under review' message
Approved	Instructor approved,	'Download Certificate' button

	certificate generated	
Rejected	Instructor rejected with reason	Reason displayed, guidance on what to fix
Held	Edge case under investigation	'Under review — contact support for details'

7.2.2 Certificate Contents

Each issued certificate PDF contains:

- Learner's full name (as registered)
- Course title (AR and EN)
- Completion date
- Total hours / CME hours (if SCFHS accredited)
- Instructor name
- Institution name: Roya Almustaqbal for Health Training
- Unique Certificate ID (alphanumeric, e.g., PG-2026-00142)
- QR code linking to public verification page
- Digital signature of the institution

7.2.3 Public QR Verification

Anyone (employers, regulatory bodies, other institutions) can verify a certificate by:

7. **Scanning the QR code** on the PDF — opens verification page in browser
8. **Or entering the Certificate ID** manually on the public verification page
9. **Verification page shows:** learner name, course, completion date, CME hours, institution, and 'VERIFIED' badge

Public verification page URL: https://physioguidance.com/verify/{certificateId} — no login required. This satisfies NELC requirements for certificate authenticity.

8. Support & Help Center

Page: student/support/page.tsx

8.1 Submit a Ticket

Learners can open support tickets for any issue:

Field	Options	Required
Category	Billing / Login / Content / Certificate / Technical / Other	Yes
Priority	High / Medium / Low	Yes (default: Medium)
Subject	Free text, max 200 characters	Yes
Description	Free text area, max 2000 characters	Yes
Attachment	Upload screenshot or document (max 5MB)	No
Related Course	Dropdown of enrolled courses	No (helps routing)

8.2 My Tickets

- List of all submitted tickets with status: New (blue), In Progress (yellow), Resolved (green), Closed (gray)
- SLA countdown: 'Expected response within 4 hours' based on priority
- Reply thread: learner can add comments, support team responds
- Satisfaction rating: after ticket is resolved, learner rates 1-5 stars

8.3 FAQ & Self-Help

- Searchable FAQ section with common questions and answers
- Categories: Getting Started, Enrollment, Sessions, Assessments, Certificates, Payments, Technical
- Quick video tutorials: 'How to enroll in a course', 'How to join a Zoom session', 'How to download your certificate'
- Links to platform policies: academic integrity, privacy, refund, accessibility statement

9. Accessibility & Preferences

Page: student/settings/page.tsx

NELC + WCAG 2.1 AA requirement: learners must have full control over accessibility settings and the platform must respect them.

9.1 Language Settings

Setting	Options	Effect
Interface Language	Arabic / English	Entire dashboard switches to selected language, RTL/LTR layout auto-adjusts
Content Language	Arabic / English / Both	Determines which version of course content is shown (if bilingual content exists)
Calendar Format	Hijri / Gregorian / Both	Date display throughout the platform

9.2 Accessibility Controls

Control	Options	WCAG Requirement
Font Size	Small (14px) / Medium (16px) / Large (20px) / Extra Large (24px)	1.4.4 Resize Text
High Contrast	On / Off	1.4.3 Contrast Minimum (4.5:1 ratio)
Captions Default	On / Off	1.2.2 Captions for all video content
Subtitles Language	Arabic / English	1.2.2 Captions in learner's preferred language
Reduced Motion	On / Off	2.3.3 No motion animations if enabled
Keyboard Navigation	Always enabled	2.1.1 All functionality keyboard accessible
Screen Reader Support	ARIA labels on all elements	4.1.2 Proper ARIA roles and labels

9.3 Notification Preferences

Notification	Channels Available	Default
Session Reminder	Email + SMS + WhatsApp + In-App	Email + In-App ON
Assessment Due	Email + In-App	Email ON

Certificate Ready	Email + SMS + WhatsApp + In-App	All ON
Grade Available	Email + In-App	Email ON
Course Update	Email + In-App	In-App ON
Promotional	Email	OFF (opt-in)

- Each notification type can be toggled on/off per channel
- Reminder timing: 1 hour / 30 min / 15 min before session (learner chooses)
- Quiet hours: learner can set 'Do Not Disturb' time window (e.g., 10 PM - 7 AM)

9.4 Privacy Controls

- Profile visibility: choose what other learners can see (name only / name + photo / full profile)
- Data sharing: opt-in/out of anonymized learning analytics
- Export my data: download all personal data as ZIP (PDP Law compliance)
- Delete my account: request account deletion (processed within 30 days per PDP)

10. Data Access & Security

10.1 What Learner CAN Access

Data	Access Level	Filter
Own enrollments	Read	WHERE studentId = me
Own attendance records	Read	WHERE studentId = me
Own assessment submissions	Read + Submit	WHERE studentId = me
Own certificate requests	Read + Download	WHERE studentId = me
Published course catalog	Read	WHERE status IN ('published', 'active')
Approved course materials	Read (enrolled courses)	WHERE enrolled AND material.status = 'approved'
Session schedule	Read (enrolled courses)	WHERE enrolled in course
Own profile + settings	Read + Write	Own record only
Support tickets	Read + Write (own)	WHERE createdBy = me

10.2 What Learner CANNOT Access

- Other students' grades, progress, attendance, or personal data
- Draft or archived courses (only published/active visible)
- Content pending CM review (only approved materials visible)
- Instructor dashboards, CM dashboards, admin features
- Platform analytics, revenue data, compliance reports
- Question bank or assessment answers before taking the assessment
- Other students' support tickets

10.3 API Authorization

Endpoint	Permission	Notes
GET /catalog	@Roles('STUDENT')	Returns published/active courses only
POST /enrollments	@Roles('STUDENT')	Creates enrollment, checks seat limits
GET /enrollments/my	@Roles('STUDENT')	Returns own enrollments only
GET /sessions/my	@Roles('STUDENT')	Returns sessions for enrolled courses
GET /attendance/my	@Roles('STUDENT')	Returns own attendance records

POST /submissions	@Roles('STUDENT')	Submit assessment answers
GET /submissions/my	@Roles('STUDENT')	Returns own submissions and scores
GET /certificates/my	@Roles('STUDENT')	Returns own certificate requests
GET /certificates/:id/download	@Roles('STUDENT') + ownership	Downloads own certificate PDF
POST /support/tickets	@Roles('STUDENT')	Creates support ticket
GET /verify/:certId	Public (no auth)	Certificate verification page

11. Cross-Cutting Features

11.1 Responsive Design

- Desktop (1200px+): full sidebar + main content + optional right panel
- Tablet (768-1199px): collapsible sidebar, single column main content
- Mobile (<768px): hamburger menu, stacked cards, bottom navigation bar
- Touch-friendly: all buttons minimum 44px tap target
- Video player: responsive with controls optimized for touch

11.2 Loading, Error & Empty States

State	Visual	Message Example
Loading	Skeleton shimmer matching page layout	(no text, visual placeholders)
Error	Red banner with retry button	'Something went wrong. Please try again.'
Empty (Courses)	Illustration + message + CTA	'No courses yet — Browse the catalog to get started!'
Empty (Certificates)	Illustration + progress message	'Complete a course to earn your first certificate!'
Empty (Sessions)	Calendar illustration	'No upcoming sessions. Check back later!'

11.3 Offline Considerations

- Video progress saves locally and syncs when connection returns
- Assessment auto-save preserves answers during connectivity drops
- Graceful error messages: 'You appear to be offline. Your progress will sync when connected.'

— End of Document —
